

# RICHMOND CONSTANCE

Backend Developer

+639150365602

rc.constante@gmail.com

San Francisco 1, Dasma Cavite

## PROFILE

Computer Science graduate specializing in backend development and Intelligent Systems, adept at designing databases and optimizing server-side logic. I build scalable systems and robust security practices to have a powerful system. Passionate about backend engineering, I strive to learn more to create innovative and secure high quality solutions.

## OBJECTIVE

I seek a Backend Developer position to leverage my experience with SQL, Python, Java and Machine Learning for uncovering relevant insights and supporting teams in making high quality system. My enthusiasm lies in applying my skills towards developing efficient scalable backend within an Agile collaborative framework.

## PRACTICAL EXPERIENCE

- **Predictive Optimization for Fog and Rainwater Harvesting**
  - Engineered an application that utilizes live weather data to predict rainwater and fog to optimize water collection.
- **Natural Language Processing Spam Classifier**
  - Engineered an application that predicts whether the text is spam or not spam

## EDUCATIONAL BACKGROUND

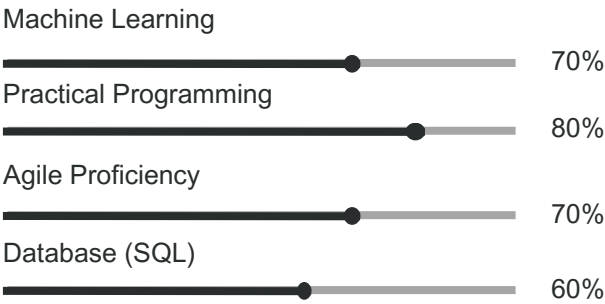

**De La Salle University – Dasmarinas**  
(Bachelor of Science in Computer Science, Specialization in Intelligent Systems)

Graduated September 2026

**Emilio Aguinaldo College Cavite (Senior High School) STEM**

Graduated June 2022
